# EMVITAL Can Help!

# Meet EMVITAL: From Pain to Function

Everyday activities, workouts, aging, and lifestyle factors can place constant demands on your muscles and joints.

EMVITAL® offers a non-surgical, energy-based option designed to provide topical tissue heating for targeted relief and relaxation where it's needed most.

# Why Choose Emvital?

EMVITAL is the latest innovation in functional laser technology, designed to help relieve muscle and joint pain and stiffness on the body and face.

From temporary aches to injuries, Emvital fits seamlessly into today's active lifestyle, with sessions lasting less than 30 minutes.

Muscle and Joint Pain or Stiffness

Noninvasive

Minor Arthritis Pain

Under 30 Minutes

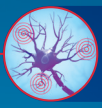
Muscle Spasm & Relaxation

All Skin Types

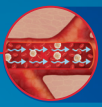
# How does it work?

Powered by advanced TriHIL™ technology and built on decades of energy-based expertise, EMVITAL uses a 1064 nm infrared laser to provide a quick and comfortable treatment experience.

The laser energy is absorbed by the body, supporting pain relief, comfort, and blood circulation in the treated area.



**Photomechanical Effect**
*Temporary Pain Relief*



**Thermic Effect**
