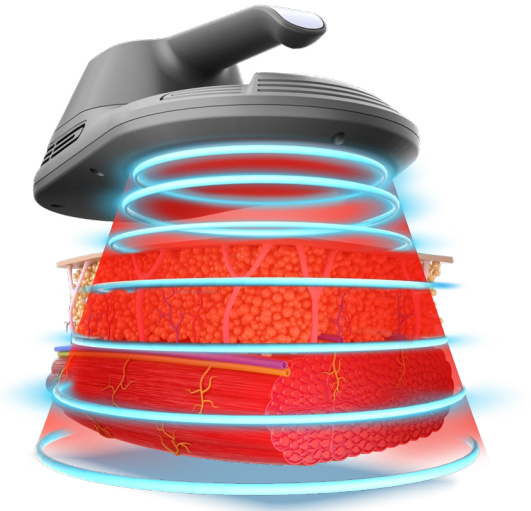
How It Works

EMSCULPT NEO is the world´s first and only technology that uses **Radiofrequency and HIFEM+** (high intensity focused electromagnetic field) to **eliminate fat and build muscles non-invasively.**



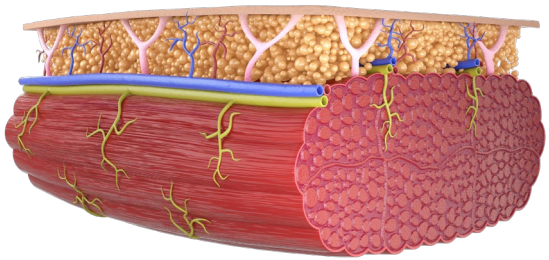
RF

HIFEM+

Results and patient experience may vary.

LESS -30% Fat

on average*



+25% Muscle MORE

on average*

The data shown represent the average results of 3 EMSCULPT NEO's clinical studies.*

Fat Breakdown

In less than 4 minutes the **temperature in fat reaches** levels that cause their **permanent damage.**

Muscle Warm-Up

The muscle temperature raises by several degrees, **similar to what a warm-up activity does before any workout.**

Supramaximal Contraction

Muscles in the treated area **are contracted at intensities** that are **not achievable during routine exercise.**

After Treatment

The fat cells are slowly removed from the body and the strained **muscle fibers initiate a growth process.** This results in **fat elimination and muscle building.**

More Applicators & Body Parts

Emsculpt NEO individually tailored treatments can help you **eliminate fat and build muscles on various body parts.**

CORE to FLOOR

EMSCULPT NEO®

EMSELLA®

After the **age of 30**, one loses roughly **3% to 5% of one's muscle mass** per decade.*

Weak muscles and lack of exercise leads to **strength, balance, posture and discomfort** issues.

1. 66% of women with **abdominal separation** have **pelvic floor disorders**.*
2. Every **11 seconds** an older adult is treated in the **emergency room** for losing balance and falling.*

Core to floor therapy utilizes **two HIFEM procedures** to **strengthen, firm and tone the abdomen and pelvic floor muscles**.

The result is increased **muscle growth and restoration of neuromuscular control**, which can improve strength, balance, posture, and incontinence as well as potentially **alleviate back discomfort**.

The Whole Core Work Out

25%

Average Increase in Muscle Mass*

94%

Average Patient Satisfaction*

"I was pleasantly surprised how much stronger I felt with Core to Floor Therapy and my incontinence improved as well."

TAUT & TONED

EMSCULPT® neo
EMTONE®

"Wearing yoga pants is the thing. I really felt you had to be really bold to wear those pants as you can see every dimple. After the Taut and Toned procedure, I'm no longer wearing those thick wet suit styled pants."

Angel, Burbank, CA

TAUT AND TONED procedure combines HIFEM, Radiofrequency, and Targeted Pressure Energy (3 technologies) to:

- Eliminate fat
- Strengthen and tone the muscles
- Smooth the skin
- Boost collagen and elastin fibers
- Increase blood circulation

Backed by Science

7*

New Clinical Studies

EMSCULPT NEO showed consistency in eliminating fat and/or building muscle in all latest clinical studies.

30*

Scientific Publications

More than 30 scientific publications since 2018 make HIFEM the most intensively researched technology used in non-invasive body shaping.

EMSCULPT neo®

Frequently Asked Questions

Why is Emsculpt NEO the ONE in body shaping?
EMSCULPT NEO is the first procedure to provide simultaneous fat elimination and muscle building in a combined 30-minute session.

Am I a candidate?
Everybody can benefit from more muscles and less fat. Ask your provider if the treatment is suitable for you.

What is the treatment time?
Four 30-minute treatments scheduled once a week are recommended. Your provider will help you create a treatment plan tailored to your specific goals.

Is there any downtime?
Any pre/post-treatment preparation?
EMSCULPT NEO is a non-invasive procedure that requires no recovery time or any pre-treatment preparation.

What does it feel like?
EMSCULPT NEO procedure feels like an intense workout with a warming sensation in the treated area. You can lay down and relax during the treatment.

Does it really work?
YES! EMSCUPT NEO showed consistency in eliminating fat and/or building muscle in seven of the latest clinical studies. Moreover, 30 scientific publications make HIFEM the most intensively researched body contouring technology since its introduction in 2018.

How fast will I see results?
You begin to feel tangible results right after the treatments. Positive results are usually reported two to four weeks after the last session and continue to improve for several weeks following treatment.
